

NWCG S-130, Firefighter Training

| | | |
|---------------|---|----------------|
| Day 1 | | |
| 8:30 - 17:00 | Review/discussion of all units of S-190, S-130 and L-180 online | William Cirone |
| Day 2 | | |
| 08:30 - 17:00 | Unit 18: Incident Exercise | William Cirone |

Day 1 (Classroom)

1. Review/Discuss Course Objectives for S-190
 - Describe the basic terminology used in wildland fire.
 - Identify and discuss the fire triangle.
 - Identify and discuss key characteristics of the primary wildland fire environment components - fuels, weather, and topography.
 - Identify critical fire weather factors that, combined with receptive fuels, may result in extreme fire behavior.
 - Recognize how alignment of fuels, weather, and topography can increase the potential for extreme fire behavior.

2. Review/Discuss Course Objectives for S-130
 - Describe the purpose of the Standard Firefighting Orders and Watch Out Situations.
 - Describe what the Lookouts, Communications, Escape Routes, and Safety Zones (LCES) system is and how it relates to the Standard Firefighting Orders.
 - Describe the various communication methods and tools used for collecting, producing, and distributing information.
 - Describe the standards, tools and equipment, and various methods used in fireline construction.
 - Describe the methods for extinguishing a fire with or without the use of water.
 - Demonstrate the ability to construct fireline to required standards using various methods, tools and equipment, and techniques.

3. Complete S-190 Student Evaluation Task Sheet (Available on NWCG Website)

4. L-180, Human Factors in the Wildland Fire Service
 - Student Workbook
 - 5 units available on NWCG Website

5. Review S-130 Unit 18 Incident Exercise (Available on NWCG Website)

Day 2 (Field Day)

1. Complete S-130 Unit 18 Incident Exercise
2. Complete S-130 Student Evaluation Task Sheet (Available on NWCG Website)
